PROFILE

Driven and motivated undergraduate with a strong passion for technology, problem-solving, and continuous learning. Seeking opportunities to apply and strengthen my technical skills, contribute to meaningful projects, collaborate with professionals, and develop practical solutions that create real-world impact.

PROJECTS

Attendance Management System

2023-2024

- Built a full-stack attendance management web application using Python, Flask, HTML, Bootstrap, and MySQL.
- Designed secure authentication flows with password hashing, session management, and OTP-based verification.
- Automated attendance tracking and reporting with Excel/CSV integration using Pandas and OpenPyxl.
- Implemented dynamic admin and tutor dashboards for managing records, attendance, and departmental reports.
- Integrated SMTP-based email notifications and deployed the application using Gunicorn.

Aittayya

2024-2025

- Developed a multilingual tourism and civic assistance web application using Python, Flask, HTML, CSS, and JavaScript.
- Built a state-based chatbot with route selection, user-intent handling, and Tamil/English language support.
- Integrated Firebase Firestore for real-time storage and retrieval of parking and service-related data.
- Developed a Google Cloud Function to automatically sync Google Sheets data with Firestore.
- Integrated Google Maps for location-based services including parking, bus stands, medical facilities, and emergency support.
